Re: Letter of Thanks

The purpose of this letter is to extend our heartfelt gratitude to WFWP, USA, for raising funds in the amount of \$6,000.00 (six thousand dollars) on May 8, 2015, to help with our service project in Rwanda.

Some students are coming to the school by 2 hours walk every day, even though it is very hard for them, they strongly want to learn some skills to support themselves in near future. Your support is surely encouraging their determination and desire. They can learn requisite and important skills enough by the materials and equipment bought by this support as well.

21 years have passed since Rwanda genocide happened in 1994. Now some of our students do not know about it in real time, but they know it as passed history. In 1995, we asked orphans what their future dreams were. They replied that: "I want to live", "I want to be with my parents and pass an ordinary life, having no difficulty to eat and going to school." We indeed then realized what a miserable life they were leading. But now they come to be able to have their image and dream in the future like children have generally.

Most of them will be in practical training outside a school in November. They are doing their best in restaurant, shops and saloons where may get employment near future.

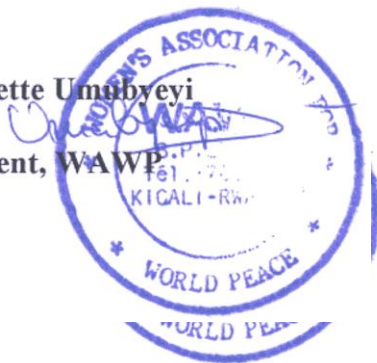

Please convey our gratitude to those who devoted their time and energy to organize the program or event that made this donation possible by sending them a copy of this letter. We want them to know that the results of their efforts really do make a profound difference in the lives of the people that this project serves.

We thank you again and extend to you and the membership of WFWP, USA our warmest wishes.

Sincerely,

Georgette Umubyeyi
